

# SPS EZpay...Simply Progressive

The solution for putting school fees online for parent access and payments over the internet.

## **Features:**

- On-line account access  
Parents can review their children's fee accounts online, for all fee types, including "pay-to-play".
- Convenient and secure payments  
Parents can pay fees on-line through a secured site, using their credit/debit card in a familiar and easy to use eStore format.
- Lunch fee processing  
Parents can review and add to lunch account balances on-line using their credit/debit card.
- System integration  
Interfaces with school's student accounting and nutrition system(s).
- Banking integration  
Interfaces with school's banking partner(s).
- Expandable eStore for new revenue sources  
Full, customizable eStore functionality for selling school supplies and logo items on-line. Also can be used for fund raising campaigns.

## **Benefits:**

- Lower administrative costs for schools  
Improved efficiency of fee administration process through automation and increased accuracy.
- Improved parent and community relations  
Student fee and lunch money payment process made much easier for both Parents and children.
- Unparalleled security  
Payment Card Industry (PCI) compliant and conforms with Visa's® Cardholder Information Security Program (CISP) guidelines.
- Banking partner efficiencies  
Direct reduction in banking partner's fee processing costs. Reduce or eliminate NSF charges.
- Flexible pricing  
Offers an affordable solution to school districts of all sizes.
- Optional Hosting  
Dedicated data center that offers world-class security, 24x7 network monitoring, comprehensive operational redundancy and support.
- Complete "One-stop" solution  
No need to deal with multiple software vendors and hosting companies.

*"The entire package interfaces with our school district's back-office accounting functions, as well as our bank's merchant-processing functions"*
